Industrial Manipulators

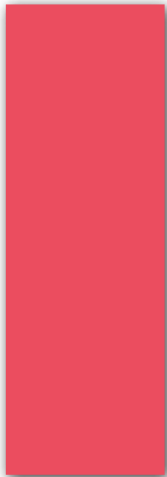

Dalmeccan offers a wide range of manipulators designed for the "weightless" handling of cardboard boxes, packaged wooden cases, products covered in film (polythene, shrink-wrap etc....).

Simple to use, they allow the operator to move a whole variety of packaged products, cardboard boxes and wooden cases quickly, accurately and safely throughout the working area.

Boxes can be picked either with suction tooling or with a pneumatic gripper head. Vacuum is created by either an electric generator or by a "Venturi" ejector.

The type, design, dimensions and gripping system of the manipulators offered are tailored to suit the specific requirements of the user and to the varying environmental conditions available.

此系列设备是为了轻松搬运各种箱形物体 - 纸板箱，木箱，塑料包装的产品（聚乙烯，热缩塑料包）等。使用简单，机械手使操作人员在整个工作区域内快速，精确安全的搬运各种纸箱木箱或成套箱形物体。箱形物体可以用吸盘或气动卡爪搬运，真空由电动机或文丘里真空发生器产生。机械手由客户定制，运用合理的设计，尺寸和抓取系统，以符合用户的特殊要求，适应各种环境。

BOXES

箱形物体

PMC type Partner manipulator, low profile model, fitted with suction head for gripping cardboard boxes and designed to operate in an area with a low ceiling.
Manipulator partner PMC, 紧凑型, 装备吸盘, 用于抓取箱形物体, 专为低矮厂房设计。

PMS type Partner manipulator, overhead trolley mounted, suitable for stacking boxes containing a variety of washing machines which arrive from the packaging line. A pneumatic motor drive is also fitted to the system, which runs in Dalmec overhead tracking.

Manipulator Partner PMS, 高架行车式, 适合堆叠从包装生产线生产的洗衣机。机械手安装气动电机驱动, 运行在戴尔麦克提供的轨道上。

PSC type Partner manipulator, column mounted, fitted with pneumatic gripper tooling. The special design of the tooling jaws allows the handling of a particularly wide range of wooden cases.

Manipulator Partner PSC, 支柱式, 配备气动卡爪工具。特别设计的卡爪可搬运各种型号的木箱。

PMF type Partner manipulator, fixed overhead, equipped with suction system to grip and handle cardboard boxes from the packaging lines to pallets.

Manipulator Partner PMF, 墙式, 装备吸盘, 可将包装线上的箱形物体搬运到栈板上。

C06

PSC type Partner manipulator, column mounted, equipped with jaws gripping system, for the picking and palletization of boxes packed with household electric appliances of various types and weights.
Manipulator partner PSC, 支柱式, 装备钳口抓取系统, 可抓取和装卸各种类型和重量的家用电器包装箱。

C07

PSC type Partner manipulator, column mounted, equipped with a Venturi vacuum suction system.
Manipulator Partner PSC, 支柱式, 装备文丘里真空吸盘装置。

I176

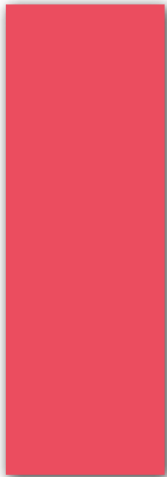

PSS type Partner manipulator, overhead trolley mounted version, fitted with vacuum tooling for gripping boxes from one packaging line and positioning the same on a pallet. The overhead tracking system is manufactured by Dalmecc.
Manipulator Partner PSS, 高架行车式, 装备真空吸盘, 可以从装配线抓取箱包并将其放在货架上。高架轨道有戴尔麦克制造。

C09

PSC type Partner manipulator, column mounted, fitted with suction cups tooling for gripping shrink-wrapped goods from a packaging line to a pallet.
Manipulator Partner PSC, 支柱式, 装备真空吸盘, 可以从装配线抓取箱包并将其放在货架上。

SPS type Speedyfil manipulator, overhead trolley mounted, equipped with a Venturi vacuum suction system.
Manipulator Speedyfil SPS 高架行车式, 装备文丘里真空吸附设备。

C11

PMS type Partner manipulator, overhead trolley mounted, with motorised pneumatic drive, equipped with special suction head and telescopic commands to allow the operator to pick boxes from a high stack on a pallet.
Manipulator Partner PMS, 高架行车式, 气动马达, 装备特殊吸盘和伸缩装置, 可以从货架高处提取货物。

C12

PMS type Partner manipulator, overhead trolley mounted, with motorised pneumatic drive, equipped with special gripper tooling, which allows the operator for gripping and 90° inclination of the box, so that pins can be fitted under the same. It is also completed with tracking system made by Dalmecc.

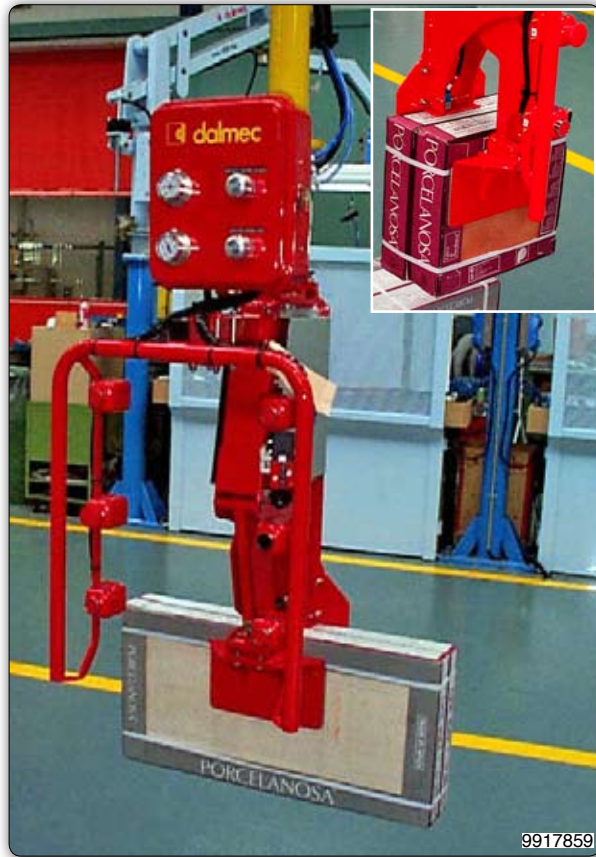

Manipulator Partner PMS, 高架行车式, 气动马达, 装备特殊吸盘, 可以从货架提取货物, 并可以90度倾斜。高架轨道有戴尔麦克制造。

C13

PMC type Partner manipulator, column mounted, equipped with jaws gripping system, for the palletization of packing boxes.
Manipulator Partner PMC, 支柱式, 装备钳口抓取系统, 用于装卸箱包。

Manipulator with gripper picking system for moving packs of tiles.
装备抓手的机械手臂用于搬运包有瓷砖的木箱。

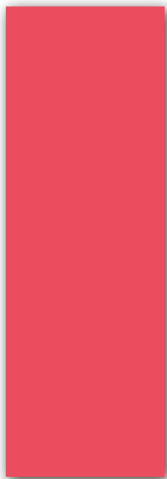

PMC type Partner manipulator, column mounted, with suction gripping system, a popular design, commonly used for moving packing boxes from a conveyor belt to a pallet.
Manipulator Partner PMC, 支柱式, 装备吸盘, 一般用于从传送带抓取货物到货架上。

PMC type Partner manipulator, column mounted, fitted with suction tooling to grip and handle cardboard boxes from a packaging line to a pallet.
Manipulator Partner PMC, 支柱式, 装备吸附工具, 从传送带上搬运箱包到货架上。

PFC type "Posifil" manipulator, column design, equipped with gripper system for picking sanitary ware, inserting it in cardboard boxes, picking the packed boxes and putting them on to pallets. Manipulator Posifil PFC, 支柱式, 装备抓取系统, 用于抓取卫生洁具, 并将其塞入木箱中, 并可以将包装好的木箱搬运到货架上。

MPS type Minipartner manipulator, overhead trolley mounted, equipped with pneumatic jaws for gripping and handling boxes of different dimensions and weights. The tooling is fitted with a proportional valve to allow the operator to easily set the balancing system. The overhead trolley and downshop tracking system are made by Dalmec. Manipulator Minipartner MPS, 高架行车式, 装备气动钳口, 可抓取和搬运不同尺寸和重量的箱包。此设备上装备平衡阀使操作人员轻松平衡系统。高架轨道有戴尔麦克制造。

MPS type Minipartner manipulator, with overhead balancer unit, handling blocks of butter, both with and without packaging. The tooling is made of stainless steel, and the pneumatic grippers are controlled by a pressure regulator. Manipulator Minipartner 装备间接平衡器, 搬运包装或未包装的黄油。此设备由不锈钢制成, 气动抓手又压力调节器控制。
